

Beers Labs LLC

SBA-certified SDVOSB / VOSB · SAM Active · CAGE 25NS5

Custom software, AI automation and data systems for federal programs and prime contractors.
Owned and run by a U.S. Army combat medic and Ranger.

CORE COMPETENCIES

- **Custom web applications:** secure, mobile-first systems built, hosted and maintained end to end
- **AI automation and agent workflows:** LLM integration, document and data extraction, Model Context Protocol (MCP) servers
- **Cloud hosting on Cloudflare:** Workers, D1, Pages, KV, Email Routing
- **Data and public-records analysis:** GIS, parcel, permit and zoning data
- **Verification discipline:** automated smoke suites, mutation testing and post-deploy live checks
- **iOS apps** in Swift and SwiftUI

PAST PERFORMANCE

Boarhog LLC, boarhogllc.com. Web vendor to a federal contractor holding GSA MAS contract 47QRAA26D008G. Design, build, hosting and monthly maintenance since March 2026, including an interactive React recognition series.

Scopeweb, scopeweb.io. Domain intelligence and registration platform built and operated by Beers Labs: registry-verified availability, live registrar pricing, card checkout, passkey accounts, custody monitoring with nameserver-change alerts and an AI-agent (MCP) interface, run on Cloudflare.

Website modernizations. Legacy WordPress and Squarespace sites rebuilt as fast, mobile-first sites for small businesses in Oregon and other states.

EV charging site analysis. Parcel ownership, zoning code, utility capacity and grant research for Portland surface lots (2026).

DIFFERENTIATORS

- Owner accountable for every line of work, no subcontract chain
- Small and fast: working software in days, not quarters
- Clinical discipline from military medicine applied to testing and release
- Low-cost Cloudflare hosting with no servers to patch
